

## Program Benefits

The Wrap-Up program replaces the insurance that the production companies would have provided, delivering the following:

**Broader Coverage** – Program provides best in class coverage, including cast, and broad form extra expense, coverages not generally carried by production companies.

**Continuity of Coverage (Principal through Post)** – Program provides consistent and continuous coverage through the entire production process reducing the likelihood of uncovered claims due to gaps in coverage.

**Higher Limits** – Limits are generally much higher than those carried by a production company.

- **Cost Reduction** – Significant cost savings when compared to cost charged by production companies for insurance within their budgets. **Example:**
  - Production Co. Insurance: \$500K budget production: \$15K Premium (3% rate)
  - Wrap-Up Insurance: \$500K budget production: \$9K Premium (1.815% rate)
  - \*\*\*40% Premium Savings\*\*\*

**Better Claims Control** – Claims are promptly handled and managed by a dedicated team of in-house experts in lieu of individual claims adjusters acting on behalf of the production company.

**Focused Expertise & Streamlined Process** – DeWitt Stern partners with 4A's Members, working on your behalf by assuming the following responsibilities:

- Placing coverage for each production declared to the program
- Addressing special risk (stunts, precision driving, etc.)
- Promptly Processing invoices for each individual production declared
- Managing claims on your behalf
